Technology Tip: “Old Favorites”

When you save websites to your Favorites list it takes a snapshot of the webpage for easy recollection later. But did you know that when you select one of your Favorites that it may not show the *current* information, as it may have changed on that website since you saved it to your favorites?

Solution: After your Favorite website is opened Refresh the website by hitting your **F5 key** or **click on your browser's Refresh icon**. You may want to now save the new Favorite to replace the old favorite.

This will also make sure you are always getting the most current information on the NSA-MN website!

***The NSA-MN Holiday Social was full of warmth & cheer!
A special thanks to Amy Tolbert for hosting this event in her home.***

Kicking off the New Year with a bang and National Get Organized Month was our own organizing expert Audrey Thomas. "Organized Audrey," released her new book, "52 Ways to Leave Your Clutter," to help people conquer their clutter over the course of one year, which allows long-term habits to form.

"52 Ways to Leave Your Clutter" is filled with simple, manageable steps to gain control of all types of clutter, including what to do with piles of paper and mail, overflowing email, the Tupperware cupboard and other kitchen surprises. In addition, Thomas offers loads of time and space-saving tips for every area of the home.

Danita Bye was featured in the November 2006 edition of Upsize Magazine. Danita's article is entitled "Stop the Blame Game!, It's time to take responsibility."
